## There Is No Place Like Home

Unexpected situations can make the simplest of life's activities a challenge. When such occurs, you want the protection of being in your own home, where familiarized tones allow you to maintain the way of life and sense of independence you're accustomed to, which you deserve and have earned, in the close comfort of family and friends. Assistance from a non-family member such as Breakthrough Healthcare Services may be all you need to realize this desire.

## Trusted Relationships

At Breakthrough Healthcare Services we know the trusted value of a solid relationship. We begin to build one with you from the very start with an in-home assessment to uncover your needs. After that we work out a tailored plan with you to meet those needs and address your specific goals and desires. Needless to say, an important part of this process is identifying your ideal caregiver.

## Our Caregivers

It takes someone special to become a caregiver for the best team in home care. We insist our caregivers portray our principles of Integrity, accountability, respect, service excellence, teamwork, compassion, candor, and professionalism. We make all efforts to match their qualifications, interests and unique attributes with your needs. Also important, all of our caregivers are required to pass our background checks, giving you the confidence, you need to trust our caregivers. In addition to our comprehensive screening, we are a drug and alcohol-free workplace, and all of our caregivers are insured and bonded. We believe you deserve the greatest care and security.
